### Webinar LTI Course for Spring 2015 Announced

We are pleased to announce that the NIAAA will be webinar teaching LTC 501, 502, 504, 506, 508, 614, 721 and 723 via the internet in the spring of 2015. The athletic administrator will be able to view the course from the convenience of their home or office. Administrators will also have the opportunity to pose live questions and the class can be divided into discussion groups with the capability of receiving reports from each groups. What better way to take a class? There will be no travel time and no travel costs (gas, meals or lodging).

Our suggestion would be to use the computer that is connected to the greatest bandwidth (DSL, Cable or T-1 line) which could be at your school if you do not have high speed internet connection at home. However you can get the broadcast with a 56K / dial up modem. The only issue here is that this type of internet connection will be slower since pictures/PowerPoint take longer to download. You will also need sound card, speakers and microphone on your computer in order to hear the instructor and participate in conversation and ask questions.

#### *Equipment Needed*

Personal Computer with internet access, sound card, speakers and microphone.
